

CONTAMINATED SITES

CAPABILITY BROCHURE

Enveng offers expertise in the assessment and management of contaminated sites, addressing a broad range of pollutants including solvents, heavy metals, hydrocarbons, and biological contaminants. Our work is carried out in strict compliance with relevant legislation, the National Environmental Protection Measure (NEPM) guidelines, and Australian Standards.

Our comprehensive contaminated land services are delivered by a team of highly qualified professionals with robust industry experience. This ensures your project benefits from a cost-effective and timely assessment and remediation process, tailored to meet both regulatory requirements and project goals.
