

CAPABILITY BROCHURE

At Enveng Group, we have a team of professionals from Graduates to Project Managers, with local Perth, Bunbury, Karratha and Pilbara (FIFO) experience.

Our team can undertake daily site operations including:

- Erosion and Sediment Control (ESC)
- Environmental Monitoring
- Daily Environmental Compliance Inspections (LPIs, KPIs)
- On Site Environmental Management
- Fauna Spotting and Removal for Clearing Activities
- Acid Sulfate Soils Management
- Revegetation and Rehabilitation
- Groundwater Management
- Dewatering Management
- Cultural Heritage Management

Why Enveng Group:

Our team brings extensive on-site experience, backed by deep expertise in environmental approvals, compliance, and management systems.

With our specialists embedded in your project, we provide proactive support to help you exceed client expectations.

A consistent daily environmental presence ensures that compliance requirements are not only met, but maintained to the highest standard throughout the project life cycle.
